

Care & Maintenance Sheet

General Cleaning Instructions

For normal everyday cleaning, we suggest the use of a mild soap and water with a soft washcloth. Do not use scouring pads or abrasive cleaners, as they will dull the surface. Always review individual cleaner's instructions and rinse thoroughly after cleaning.

Recommended Cleaners:

| | | |
|------------|-------------------|-------------|
| Scrub Free | Simple Green | Mr. Clean |
| Bon Ami | Glass Plus/Windex | Formula 409 |
| Dawn | Joy | Fantastic |

Do NOT Use:

| | | |
|------------|-------------------------|-----------------|
| Comet | Steel Wool/Wire Brushes | Harsh Abrasives |
| Soft Scrub | Dyes or inks | Acetone |
| Bleach | Cleaners with bleach | Ajax |
| Ammonia | Cleaners with ammonia | |

Drain Cleaners

Caution: Liquid drain cleaners are recommended over powders and/or crystal. However, when using liquid drain cleaning agents, bail the standing water out of the bathtub and remove the drain plug. Use a funnel to prevent spills and apply the chemicals directly down the drain. Always make certain that chemicals do not come in contact with the refinished surface. Use drain cleaners sparingly so that they do not boil out and attack the refinished surface.

Special Instructions

1. Do not drop sharp or heavy objects on the finish, this can cause chips. Contact 24 Hour Bath immediately for repairs if this should occur. Failure to do so in a timely manner can cause further damage to surrounding coatings.
2. **Do not use bath mats with suction cups.** Suction cups will react with minerals, pool in and around the suction cups, etch into the surface and cause coating to lift.
3. Do not cut directly on or place hot pans and/or pots directly on refinished countertops.
4. Leaky faucets must be repaired and maintained. Failure to maintain will cause water to erode the finish and void warranty

If you have any questions or concerns, please feel free to contact us and we will be happy to help.
